Except as specifically described, the following disclosures apply to all accounts.

All accounts described in this Truth-in-Savings Disclosure are share, share draft, share certificate, and share IRA accounts.

WELLBY ACCOUNTS — To open an account with Wellby, you must deposit or already have on deposit the minimum required share(s) in a Share Savings account. Primary Savings, Wellby Early Start Savings, and Wellby Achievement Savings Accounts. As a condition of membership, you must purchase and maintain the minimum required share(s) as set forth below, which will be funded by Wellby.

Par Value of One Share: \$5.00

Number of Shares Required: 1

NCUA SHARE INSURANCE FUND: Funds are federally insured to at least \$250,000.00 by the National Credit Union Administration (NCUA), a United States Government Agency, and backed by the full faith of the United States of America's Government.

NATURE OF DIVIDENDS — Dividends are paid from current income and available earnings, after required transfers to reserves at the end of the dividend period. Special or extraordinary dividends, when declared, are governed by separate eligibility requirements, are not guaranteed, and differ from regular dividend payments.

SPECIAL MEMBER DIVIDEND (ONE-TIME DISTRIBUTION) Wellby may, at its discretion, declare and pay special dividends to eligible members, subject to Board approval and applicable regulatory requirements. The 2026 Special Member Dividend is a one-time dividend distribution funded from available earnings and is not a promotional bonus.

Eligibility Requirements:

To receive the 2026 Special Member Dividend, a member (1) must be an eligible member with a Primary Savings share account in good standing with Wellby, (2) maintain the Primary Savings share account on the dividend payout date, February 13, 2026, and (3) must not have any loans that are 30 days or more delinquent. Note: Youth members who meet these requirements are included.

Exclusions: A member is not eligible for the 2026 Special Member dividend if (1) the member's account(s) are not in good standing, which includes charged-off accounts, accounts in bankruptcy, foreclosure, or repossession, or (2) the member closed their Primary Savings share account prior to the dividend payout date.

Dividend Payout: The Special Member Dividend will be credited to the Primary Savings share account. Payouts are determined using two engagement-based tiers. Each eligible member will receive a single dividend payout based on the highest tier the member qualified for during 2025. If a member qualifies for more than one tier, only the highest payout tier will apply.

Payout Tiers: Tier 1: Transaction-Based Engagement. Members in good standing with an active debit card and checking account earn a \$0.37 dividend per Wellby debit card transaction made in 2025. Note: there is no cap on the number of qualifying transactions. If applicable, members may earn an additional \$0.37 dividend for each qualifying Wellby credit card transaction made in 2025. Tier 2: Deposit Relationship Engagement (Average Daily Deposit Balance) Tier 2 payouts are capped at \$2,000.00 per membership. Payout is based on the combined average daily balance across all eligible deposit share accounts in good standing within the 2025 calendar year:

- \$2,000 payout if  $\geq$  \$1,000,000.00 in account
- \$1,000 payout if  $\geq$  \$500,000.00 in account up to \$999,999.99
- \$500 payout if  $\geq$  \$250,000.00 in account up to \$499,999.99
- \$200 payout if  $\geq$  \$200,000.00 in account up to \$249,999.99
- \$150 payout if  $\geq$  \$100,000.00 in account up to \$199,999.99
- \$100 payout if  $\geq$  \$65,000.00 in account up to \$99,999.99
- \$10 payout if  $\geq$  \$100.00 in account up to \$64,999.99
- \$0.00 payout for  $<$ \$100.00 in account.

NOTE: Certificate of Deposit (CD) balances are excluded from calculation. This special dividend is separate from and in addition to any regular dividends described below.

[1] RATE INFORMATION. The Annual Percentage Yield (APY) is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. The dividend rates and Annual Percentage Yields are variable rates for the following accounts: Primary Savings, Wellby Savings, Wellby Early Start Savings, Wellby Achievement Savings, Wellby Savings Plus, Wellby Traditional IRA Savings, Wellby Roth IRA Savings, Wellby Educational IRA Savings, Wellby Secure Spending Checking, Wellby Spending Plus Checking, Wellby Early Start Card, and Wellby Achievement Card. The variable-rates may change without notice. Rates are fixed during their term until maturity for the following fixed-rate accounts: Wellby Share Certificates, IRA Traditional, IRA Roth, and IRA Educational Share Certificates.

[2] ACCRUAL OF DIVIDENDS. For all dividend earning accounts, interest will begin to accrue on the business day that non-cash items (i.e., checks) are deposited to the account. If you close your account before interest is paid, you will not receive the accrued interest.

[3] COMPOUNDING AND CREDITING. The compounding and crediting frequency of dividends and the dividend period applicable to each account are stated in the Rate Schedule. The dividend period is the period of time at the end of which an account earns dividend credit. The dividend period begins on the first calendar day of the period and ends on the last calendar day of the period.

[4] MINIMUM DEPOSIT AND MINIMUM BALANCE REQUIREMENTS. The minimum opening deposit for a share savings account is the required par value as disclosed in the fee schedule. The minimum balance requirements may include, the minimum balance you must maintain in the account to avoid service fees, and the minimum balance that you must maintain each day to earn the stated Annual Percentage Yield (APY) for that account.

[5] **BALANCE COMPUTATION METHOD.** We use the Daily Balance to calculate interest on your account. The Daily Balance Method applies a daily periodic rate to the full amount of principle in the account each day. Dividend (interest) calculation method: Dividends accrue from the day the deposit is posted, up to the day of withdrawal. The daily rate is applied to the end of day balance in the account. The daily rate is 1/365 of the dividend (interest) rate, or in a leap year, we may use 1/366 of the interest rate.

[6] **ACCOUNT AND TRANSACTION LIMITATIONS.** Specific accounts have transaction limitations such as share certificates: After the account is opened, you may not make additions to the account until the maturity date stated on the account. If you withdraw funds after the account is opened, partial withdrawals are not permitted. All funds must be withdrawn as part of an early withdrawal, and you may be charged a fee as disclosed in the Early Withdrawal Penalties.

[7] **MATURITY.** Your account will mature according to the term indicated above, and as indicated on your account summary or statement.

[8] **EARLY WITHDRAWAL PENALTIES.** A penalty may be imposed for withdrawals before maturity. If an early withdrawal penalty is imposed, the penalty may be imposed regardless of whether dividends that equal the amount of the penalty have been earned at the time of withdrawal. To the extent that dividends in the Certificate account at the time of withdrawal are insufficient to pay the entire penalty assessed, the penalty will be assessed against the principal. If you close your Wellby Primary Savings account before dividends are credited, you will also be required to close your Share Certificate accounts with us, and you will receive any accrued dividends on any of the closed accounts. Withdrawal of Dividends Prior to Maturity: The annual percentage yield assumes that dividends will remain in the account until maturity. A withdrawal of dividends prior to maturity will reduce earnings and lower the annual percentage yield. Time Requirements: Your account will mature as specified on your Certificate or renewal notice. In certain circumstances, such as the death or incompetence of an owner of this account, the law permits, or in some cases requires the waiver of the early withdrawal penalty. Other exceptions may also apply, for example, if this is part of an IRA or other tax-deferred savings plan. For IRA Certificates additional IRS restrictions and rules apply. More information is available upon request.

[9] **RENEWAL POLICY.** This account will automatically renew at maturity. You may prevent renewal if you notify us by telephone or by written notice before maturity, or before the end of the five (5) day grace period of your intention not to renew. You will have a grace period of five (5) calendar days after maturity to withdraw the funds without being charged an early withdrawal penalty. If you prevent renewal, dividends will not accrue after final maturity. You will receive a maturity notice at least 20 days prior to the maturity date. The dividend rate and APY that will apply to your account if the Certificate is renewed may not be determined as of the date of this notice. At maturity, you may call the credit union at (281) 488-7070 or (800) 940-0708 to determine the dividend rate and APY that will apply to your account if it is renewed.

We reserve the right to decline a Certificate renewal. Each renewal term will be the same as the original term beginning on the maturity date unless that term was promotional or is no longer offered. If the term was promotional or is no longer offered, the new term will be disclosed on the maturity notice you receive 20 days prior to maturity. The renewal term will begin on the maturity date of the Certificate. The dividend rate will be the same as we offer on new Share Certificate accounts as of the maturity date, which has the same term, minimum balance requirements (if any), and other features as the original Share Certificate account.

The dividend period is monthly; for example, the beginning date of the first dividend period of the calendar year is January 1, and the ending date of such dividend period is January 31. All other dividend periods follow this same pattern of dates. The dividend declaration date is the last day of the dividend period, and for the example above, it is January 31.
